Subject: Heart burn regarding EPA draft responses to DOI comments on April 2011 draft of UCR sediment QAPP

Dave:

I took a quick look at the attached document. There are several of the responses that concern me (Items 2, 3, 4, 5, 8, 10, and 12). I have not yet re-reviewed the responses on Pages 5 to 70, but assuming this section has not changed since December 6 (my attached input on DRAFT DOI responses), there are likely some issues with these EPA responses too.

Maybe you, Don, and I could schedule a time to talk some time next week. It would be good to talk before the Seattle meeting January 17 to 19; a meeting that Don and I will be participating on via speaker phone during that week).

Thanks!
